Applied Science

✚ Relevant course:

Assembly languages

Algorithm and Data structure

To know more about me, I STRONGLY
SUGGESTS to go on my personal
website to check it out: hansenwang.ml

WORK

Easy Education Inc.

A web app startup based on Kitchener

Developer (Ruby on rails, full-stack, UI/UX)

April 2016 – August 2016

- ✚ Worked as a full-stack web developer using Ruby on rails;
- ✚ Worked as the only graphical designer in the company;
- ✚ Worked closely with the CEO to make market strategy;
- ✚ Did data analysis for both business purpose and web features implementation purpose;

PROJECTS

E-commerce Website

Personal side project(*HTML/PHP7*)

- ✚ Built both frontend and backend on my own using PHP7/HTML/SASS/Bootstrap
- ✚ This site lists the most creative products I have ever seen
- ✚ The goal of the site is to make people's lives better

Personal Website

Personal side project(*Html/Javascript/CSS*)

- ✚ Build with HTML/PHP5/CSS/Bootstrap with responsive design
- ✚ The site is meant to give others a better idea of who I am, what I am passionate about and is also used to practice my web dev skill
- ✚ This site contains my visions, details of my project, my designs and more detailed information about me

RiskyPhone

Personal side project(*Java/Android*)

- ✚ Generated the idea behind this Android application based on a popular internet trend called "extreme phone pinching"
- ✚ Designed the user interface using Photoshop and coded it using Android Studio
- ✚ Worked with a friend together during a hackerthon.
